Bare Copper Bars

Bare Copper Bars serve as an essential element for numerous electrical applications. These bars are composed of top-grade copper, renowne for its outstanding electrical conductivity and longevity. DAR suppling, guaranteeing that each bar adheres to the strictest quality ar performance standards. These bars find common use in electrical grounding systems, bus bar systems, and various other electrical installation Their sturdy build and exceptional conductivity position them as the preferred choice for ensuring secure and efficient power distribution.

Dimensions mm	CSA mm2	Length m
20 x 3 mm	60	4
25 x 3 mm	75	4
25 x 4 mm	100	4
30 x 4 mm	120	4
30 x 5 mm	150	4
40 x 4 mm	160	4
40 x 5 mm	200	4
40 x 6 mm	240	4
50 x 5 mm	250	4
50 x 6 mm	300	4
50 x 8 mm	400	4
50 x 10 mm	500	4
60 x 6 mm	360	4
